

Medical Trailer to Treat Four Patients

Our four bed patient trailer gives your organization the ability to be "on the scene" and provide care to your patients as if they were in a hospital setting.

The customized 26' trailer comes equipped to treat four patients at the time along with providing storage, a work area, refrigeration, backup generator and privacy curtains.

Each patient area has drawers underneath patient bed for supply storage as well as curtains for each area. The photo to the left shows the view from the rear of the trailer looking into the patient area. The below photo is a closer image of what the storage underneath the beds looks like.

The below picture shows all the storage options in the rear of the trailer. Pindown system included for secure generator storage as well as plenty of shelves made from diamond plate and equipped with cargo nets.

Henderson NC 27537

Toll Free 866.640.2028

Each Patient Area

Each Patient area includes:

- 4" mattress
- 3 position head rest
- 1 position foot rest
- 1 oxygen outlet
- 1 privacy curtain
- Monitor Pole
- Oxygen Flowmeter
- Handrail on bed

The front of the trailer provides a counter for work space, plenty of locking storage compartments and a refrigerator.
